## Summary

---

Full-stack developer with **1+ years experience** building scalable web applications using **React, Next.js, Node.js, and React Native**. Experienced in REST APIs, authentication, database design, and AI-powered applications. Focused on performance, maintainable architecture, and production-ready systems.

## Skills

---

**Languages:** JavaScript, TypeScript, Java, Python, HTML, CSS

**Frontend:** React.js, Next.js, Redux, Context API, Zustand, Tailwind, Chakra UI, shadcn,

**Backend/Cloud:** Node.js, NestJS, Express, REST APIs, WebSocket, AWS, cloudinary, imagekit.io

**Mobile:** React Native, Expo, React Navigation

**Databases:** MongoDB, PostgreSQL, SQL, supabase, Neon DB, Firebase

**AI Integration:** OpenAI API, Gemini API, veo 3, Neno banana

**Tools:** Git, GitHub, Postman, VS Code, Android Studio

## Experience

---

### Software Developer — Evtaar

Feb 2026 – Present (Remote)

- Building a **CRM and HR management platform** handling employee lifecycle, payroll, leave management, and hiring workflows.
- Developed scalable backend APIs and role-based access control for secure enterprise workflows.
- Contributing to **Viaridez**, a ride and trip management system for drivers, transport companies, and customers.

### Software Developer — BlueHorse Software

Jan 2025 – Jan 2026

- Developed full-stack applications using **React/Next.js and Node.js**, delivering scalable enterprise software.
- Implemented authentication, role-based access control, and optimized database schemas.
- Built reusable UI components and managed application state using Redux and Context API.
- **Projects:** AuditFlow – An Audit Management System, WOW MOMO – Menu and Combo Management System, Tezcommerce AI – An AI-powered E-commerce System, Virtual HR – A RAG platform trained on company/office policies. etc

## Projects

---

### AuditFlow — Audit Management System

- Developed financial audit management platform using **React, Node.js, MongoDB**.
- Implemented audit workflows, financial statement management, and role-based access control.
- Integrated secure document storage using **AWS S3**.

### WOW MOMO — Menu & Combo Management System

- Built store-based menu and combo management system using **React, Redux Toolkit, Node.js, SQL**.
- Implemented dynamic menu configuration, Excel-based menu upload, and profit calculation features.

### Tezcommerce AI — AI Powered E-commerce Platform

- Developed AI-powered product management platform using **Next.js and LLM APIs, PostgreSQL**.
- Implemented AI-based product description generation, image generation, and SEO automation.
- Designed role-based access system for company, brand, and user management.

### Evtaar — All-in-One CRM, Employee & Hiring Management Platform

- Developed an enterprise platform integrating **CRM, sales pipeline, lead management, event management, and activity feeds** using **React, Tailwind CSS, and Redux**.
- Implemented modules for **candidate tracking, employee lifecycle management, payroll, leave management, and role-based access control**.

## Education

---

**Master of Computer Applications** — Haldia Institute of Technology

2023–2025

**Bachelor of Computer Applications** — Panskura Banamali College

2020–2023

## Certificates

---

JavaScript (Udemy, 2024)

Frontend Development (Great Learning, 2023)
